*This summary is incomplete in that reports from all stations are not included. Only larger stations, or stations representative of a geographical area are included. Fluctuations in strength at some stations, or in some areas may be the result of not having received all of the reports from those stations or areas at the time this summary is published.

Note: One (1) case of meningococcic meningitis was reported from Camp Lee, Va.

(M) The strength of stations so marked may fluctuate considerably because of being engaged in maneuvers.

"Keep 'Em Flying"

1. The first part of the report is a summary of the work done during the year. It is divided into two main sections: (a) the work done in the field, and (b) the work done in the laboratory.

2. The second part of the report is a detailed account of the work done in the field. It is divided into three main sections: (a) the work done in the field during the summer months, (b) the work done in the field during the autumn months, and (c) the work done in the field during the winter months.
